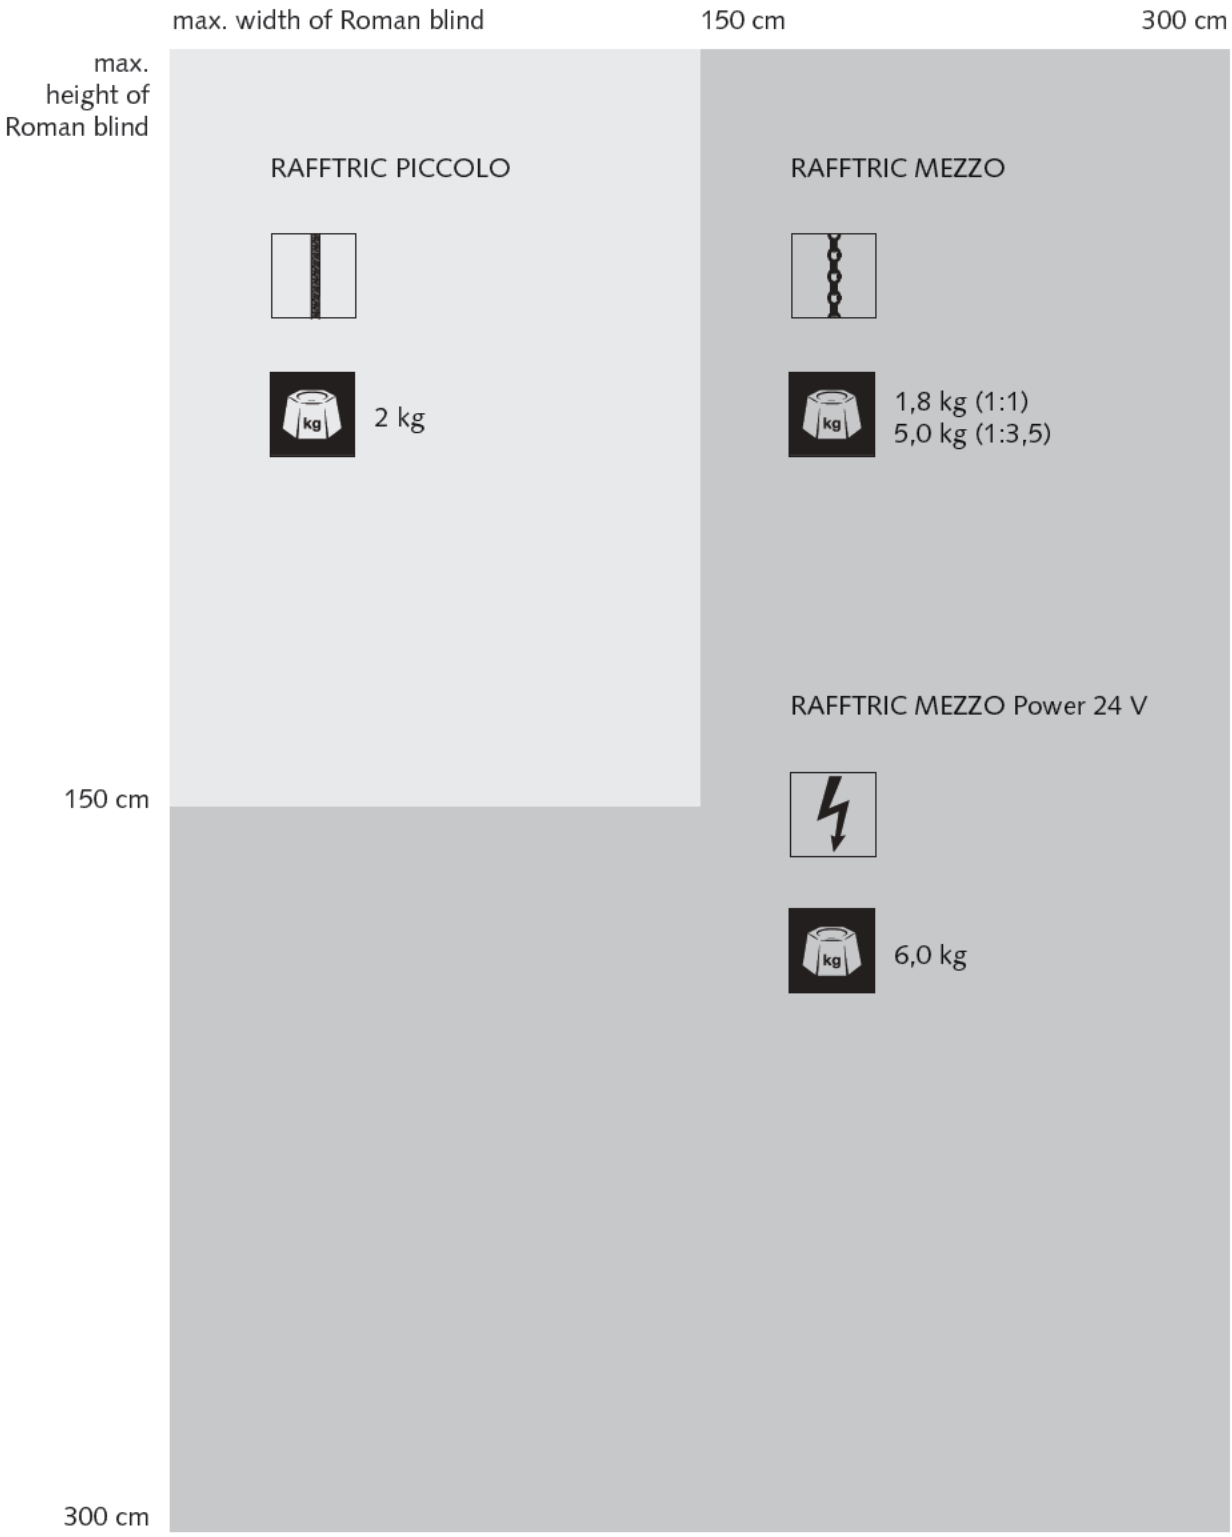
OVERVIEW



Operation:

- Draw cord
- Chain
- Motor drive

ROMAN BLIND SYSTEMS

An exceptional range of Roman blinds from Création Baumann, offering many window design possibilities. A choice between different system types for optimum use at the window.

The Création Baumann fabric collection includes a wide range of plain colours and beautifully-designed patterns, incorporating colours, motifs and materials to suit the multi-layered effect of Roman blinds.

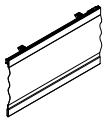
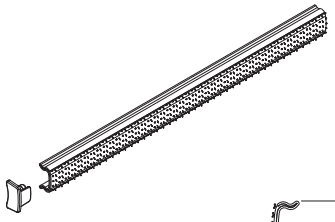
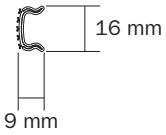
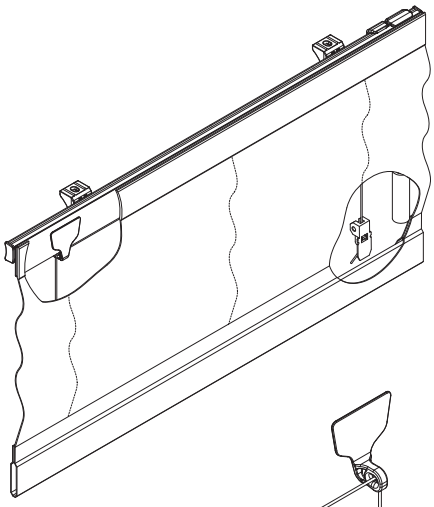
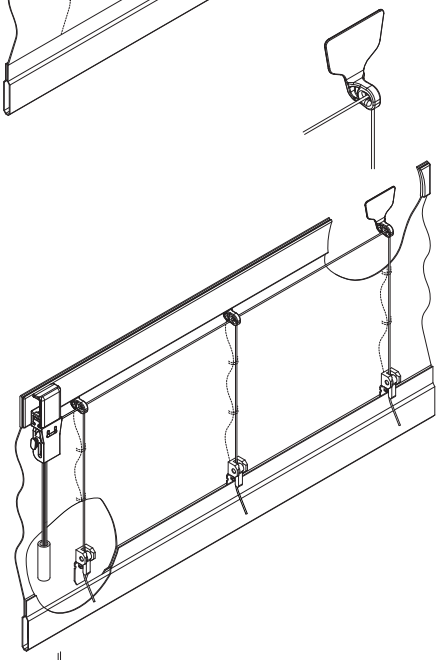
RAFFTRIC PICCOLO TECHNIQUE

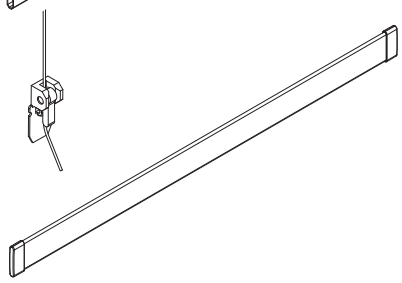






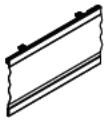


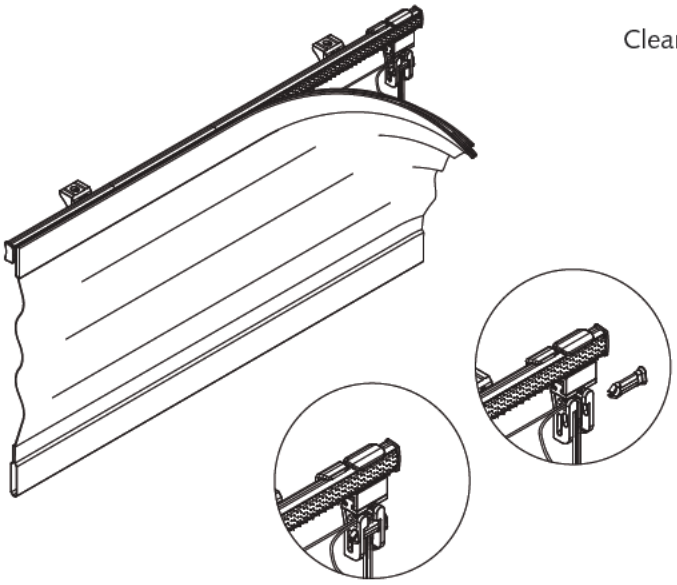




Profile	An ultra-flat aluminium profile with hook-and loop tape for small roman blinds, ideally suited for direct attachment to window frames.
Colours	Standard white RAL 9016
Size of system	Width up to max. 150 cm Height up to max. 150 cm
Weight of curtain	max. 2 kg
Function	Sewn-in eyelets for direct control of the draw cords on the curtain
Bottom weight	Flat aluminium profile 3 x 25 mm
Operation	Draw cord white Installation either left or right

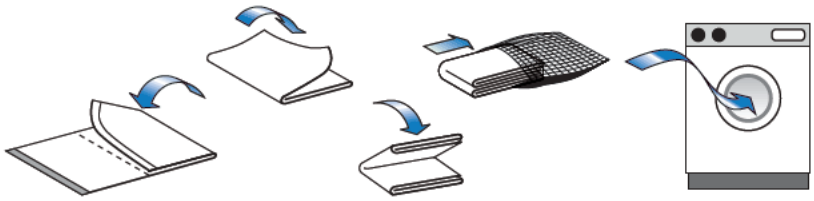
RAFFTRIC PICCOLO TECHNIQUE





Cleaning the curtain

Take the fabric off the system:
1. Pull the curtain downwards and out
2. Take the cord out of the cord closure
3. Take the blind off the aluminium profile/hook-and-loop tape at the top



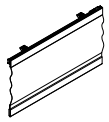
Wash the curtain

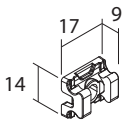
After washing:
1. Fix the curtain onto the hook and loop-tape
2. fit the drew cord into the cord closure
3. The system is then ready to use

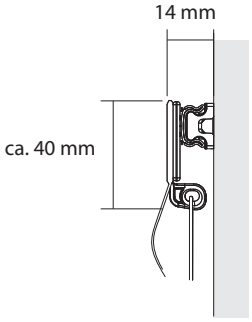
Arrangement of tapes/brackets

Width up to cm	40	70	100	130	150
Number of tapes	2	3	4	5	6
number of brackets	2	2	3	3	3

RAFFTRIC PICCOLO
INSTALLATION

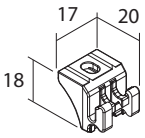


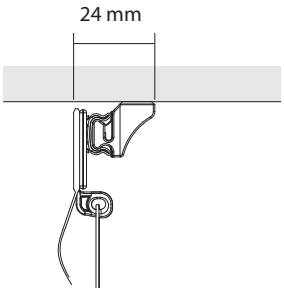




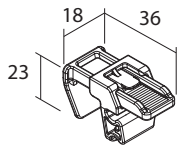
measure in mm

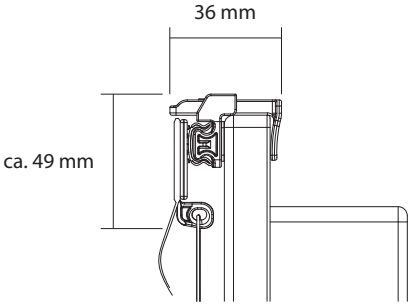
Wall clip	Plastic, direct installation on wall/ window frame
Colours	white





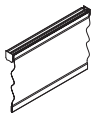
Ceiling clip	Plastic, direct installation on ceiling
Colours	white

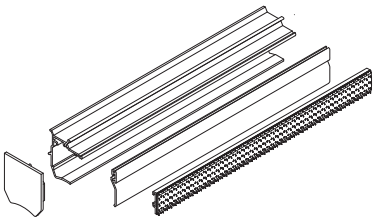


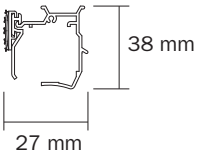


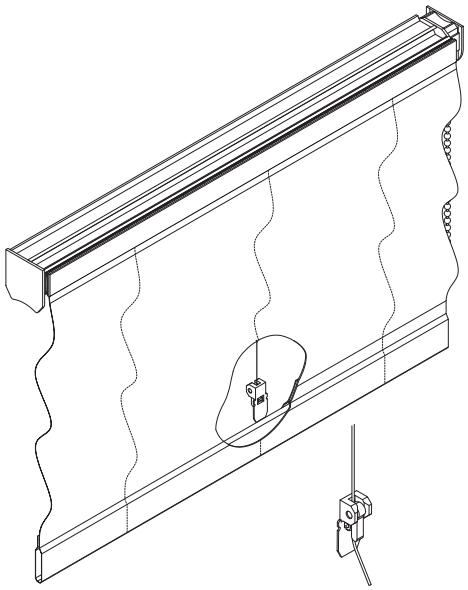
Clamping carrier	Plastic, direct installation on window sash, no screws needed
Colours	white

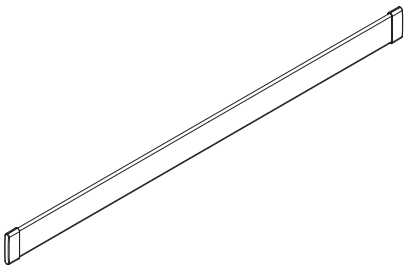
RAFFTRIC MEZZO TECHNIQUE

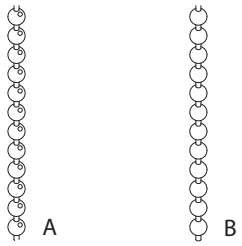






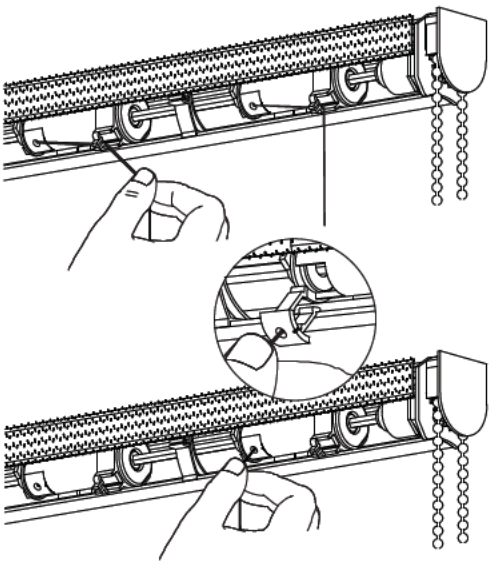






Profile	Stable aluminium profile, 3 parts (head, cover, hook-and loop-tape) for medium-weight and heavy roman blinds. Curtains are quick and easy to remove for cleaning, thanks to the user-friendly click mechanism with cord-clip.
Colours	Standard white RAL 9016 Standard anodized aluminium/grey
Size of system	Width up to max. 300 cm Height up to max. 300 cm
Weight of curtain	Gear drive 1:1 max. 1,8 kg Gear drive 1:3,5 max. 5,0 kg
Function	Cord spool with cord clip for simple insertion and removal of draw cord
Bottom weight	Flat aluminium profile 3 x 25 mm
Operation	A Nickel-plated metal chain B transparent Plastic chain white grey either right or left weight of chain in stainless steel INOX 90 weight 90 g INOX 35 weight 35 g Factory-made installation of endless-chain

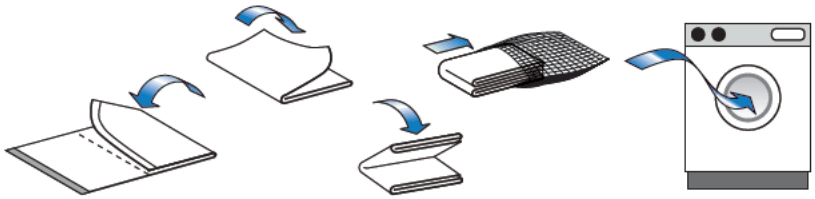
RAFFTRIC MEZZO TECHNIQUE



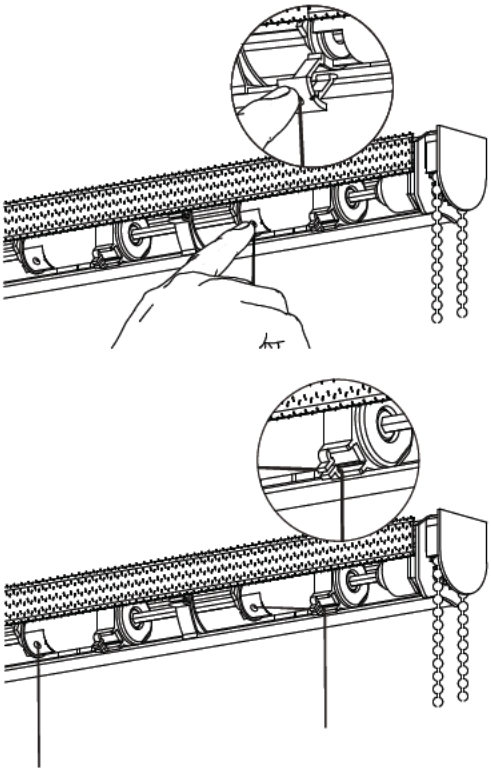
Cleaning the curtain

Take the fabric off the system

1. Pull the curtain completely downwards and out
2. Take the blind off the aluminium profile/hook-and loop tape at the top
3. Take the cord out of the locking mechanism
4. Pull the cord clip out of the cord spool



Wash the fabric



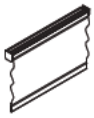
After washing:

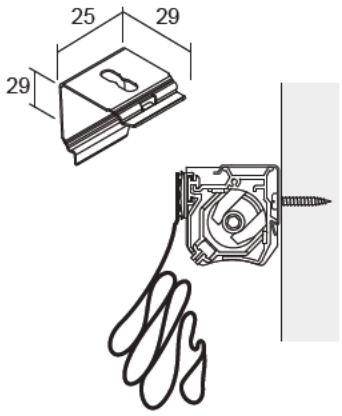
1. Press the cord clip into the cord spool
2. Fit the cord into the locking mechanism
3. Fix the curtain onto the hook-and loop tape
4. The system is then ready to use

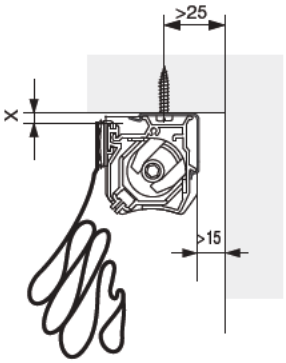
Arrangement of tapes/brackets

Width up to cm	90	130	170	210	250	300
Number of tapes	3	4	5	6	7	8
number of brackets	2	3	3	3	4	4

RAFFTRIC MEZZO INSTALLATION



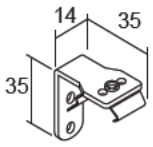


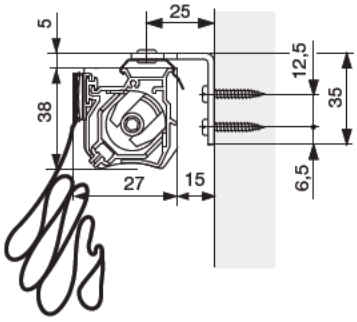


measure in mm

Clip — Spring steel, for ceiling and wall installation

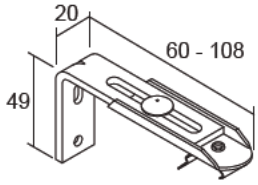
Colours — Standard stainless steel
Standard white

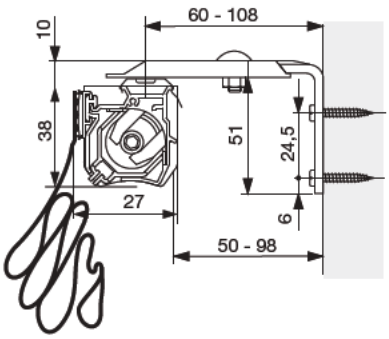




Wall bracket 25 mm — Metal, with pre-assembled clip

Colours — Standard galvanized
Standard white

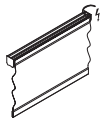


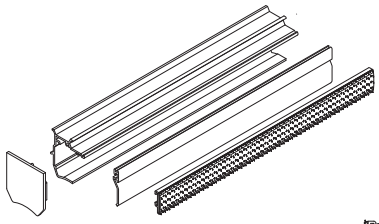


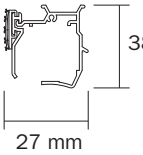
Wall bracket 60–108 mm — Metal, with pre-assembled clip

Colours — Standard galvanized
Standard white

RAFFTRIC MEZZO POWER 24 V
TECHNIQUE



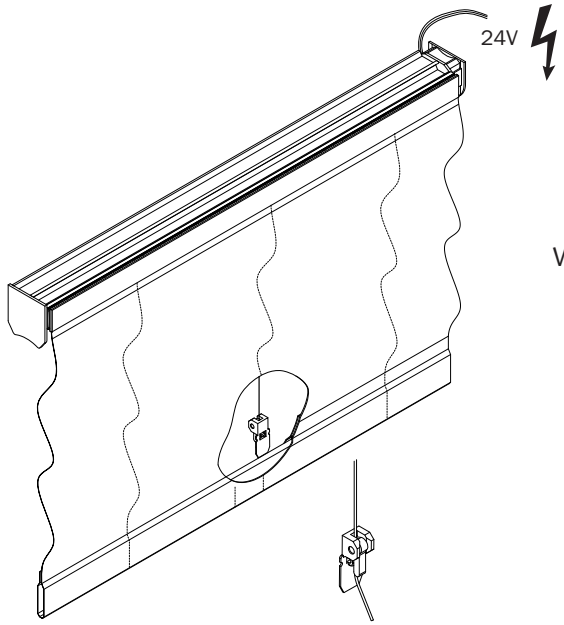




Profile
Stable aluminium profile, 3 parts (head, cover, hook-and loop-tape) for medium-weight and heavy roman blinds.

Curtains are quick and easy to remove for cleaning, thanks to the user-friendly click mechanism with cord-clip.

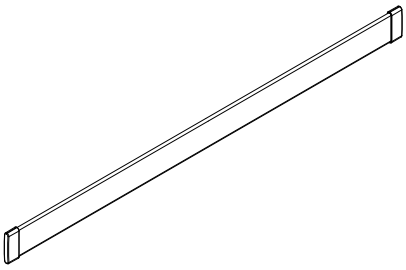
Colours
Standard white RAL 9016
Standard anodized aluminium/grey



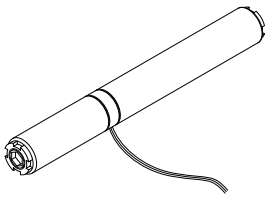
Size of system
Width up to max. 300 cm
Height up to max. 300 cm

Weight of curtain
max. 6 kg

Function
Cord spool with cord clip for simple insertion and removal of draw cord



Bottom weight
Flat aluminium profile 3 x 25 mm



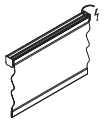
Motor
24-Volt DC motor

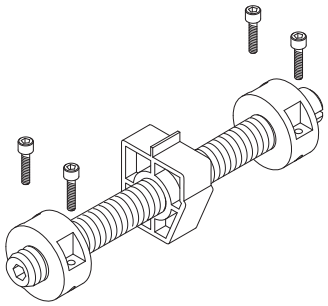
somfy®

Minimum electric tension	20 V
Nominal current	0.50 Amp.
Rotations/minute	30
Length of electric cable	250 cm
With overload protection	

Pay attention to the wire cross section!

RAFFTRIC MEZZO POWER 24 V TECHNIQUE

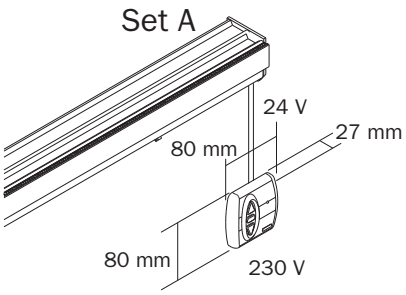




Stopper top/ bottom

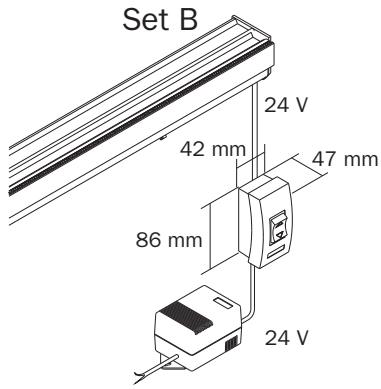
Setting up of upper and lower limit stop at the factory, fine adjustment on-site possible

Remove curtain from system, washing instruction see Rafftric Mezzo

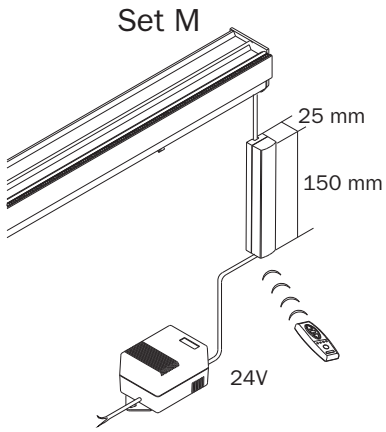


Operation/ controller

Set A:
Switch with integrated transformer (INIS DC) 230/24 volt, colour white



Set B:
White pole reverser switch 230/24 volt black transformer with 230 volt cable/ connector (cable length 200 cm) as well as 24 volt cable (cable length 200 cm)



Set M:
Radio receiver set (DC-RTS) 24 volt white version with 1-channel white radio hand-held transmitter (Telis 1 RTS) and 230/24 volt black transformer with 230 volt cable/connector (cable length 200 cm) as well as 24 volt cable (cable length 200 cm)

Group control

Group control as of two installations upon inquiry

Aarrangement of tapes/brackets

Width up to cm	90	130	170	210	250	300
Number of tapes	3	4	5	6	7	8

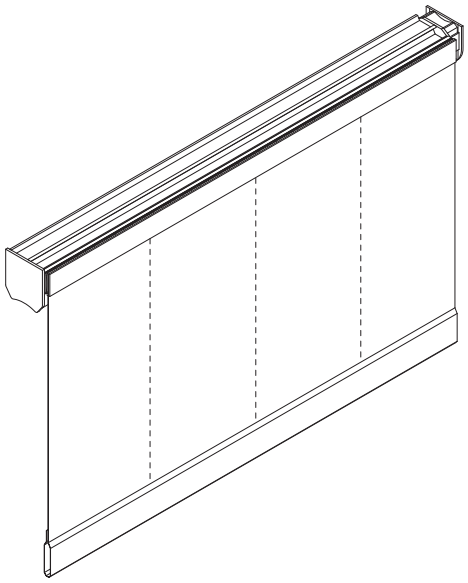
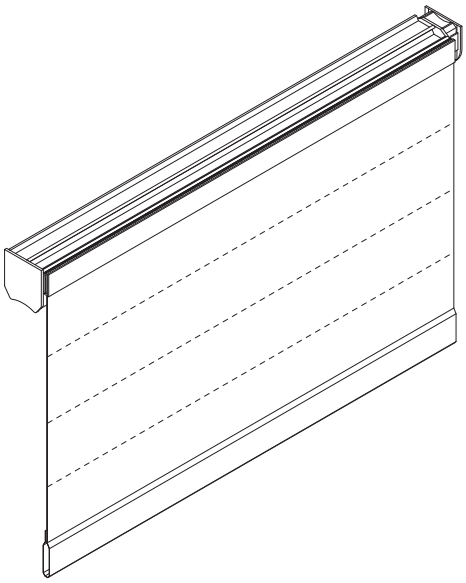
RAFFTRIC
MAKING-UP



Making-up type A

Reverse surface, vertical, sewn-on, transparent loop tape (7,5 cm division)
Distance between segments approx. 15 cm
Depth of fold approx. 7,5cm
Side seams approx. 6 cm, lower border approx. 4 cm height
Weighting – flat aluminium profile, 3 x 25 mm

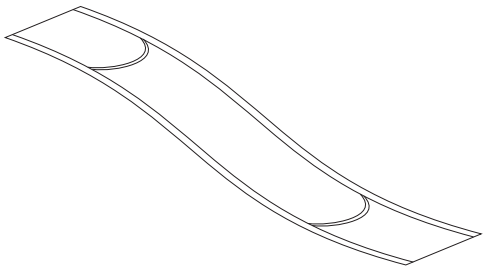


Making-up type B

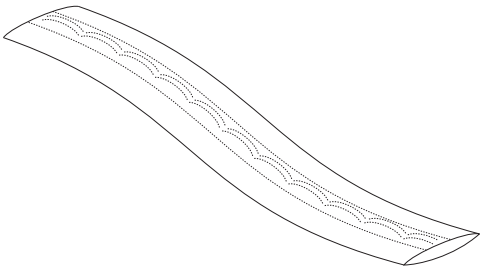
Reverse surface, horizontal sewn-on, transparent insertion tape
Robust circular insertion rod ø ca. 4 mm
Distance between segments approx. 20-30 cm, depending on height
Depth of fold approx. 10–15 cm
Side seams approx. 1 cm, lower border approx. 4 cm height
Weighting-Flat aluminium profile 3 x 25 mm

Curtain stack on top:
Abt. 15–20% of the height of curtain (depending on the kind of fabric and type of making up)

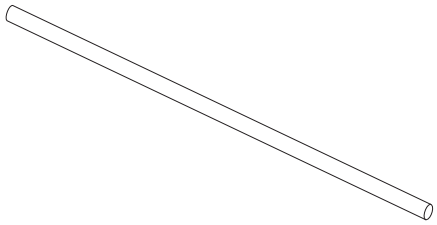
RAFFTRIC
MAKING-UP ACCESSORIES



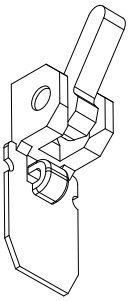
Transparent polyester loop tape with cross loops, 7,5 cm division, to sew on, width 20 mm (making-up type A)



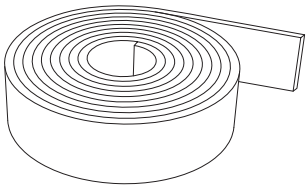
Transparent polyester insertion tape with longitudinal loops, to sew on, width 18 mm (making-up type B)



White circular insertion rod, light and robust, diameter 4 mm (making-up type B)

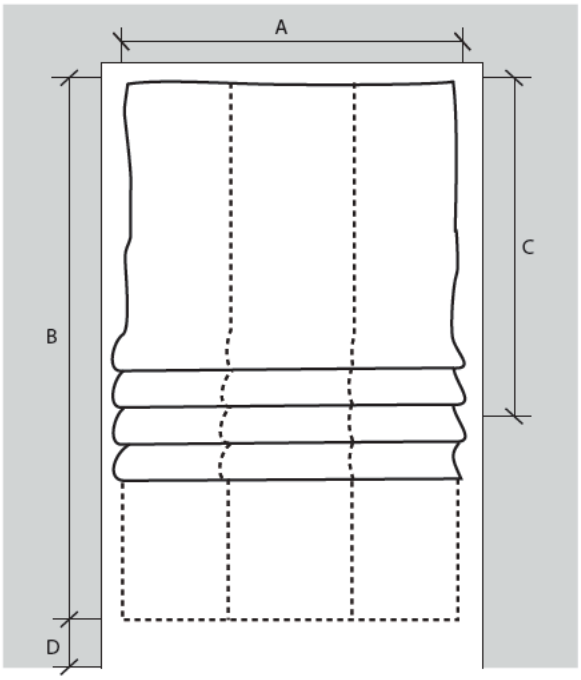


Transparent cord lock, to sew on



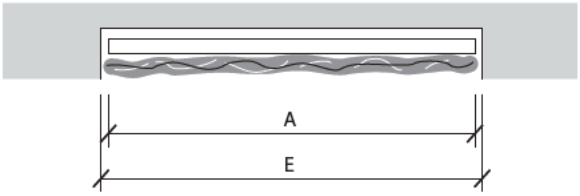
White polyamide hook-and loop tape, washable, to sew on, width 20 mm

MEASURING AND INSTALLATION



The roman blinds/systems are made to measure. The maximum system widths and heights are specified in the detailed technical sheet.

A – Width of system: the width of the roman blind system
B – Height of system: the distance between the top edge of the system and the bottom edge of the fabric (in the fully-extended condition)
C – Please advise draw side and draw length
D – Floor clearance



For bay windows or wall-to-wall fittings, please deduct approx. 1 cm from the bay or wall-to-wall measurement.

E – Width of bay
A – System width = width of bay minus 1 cm
